

PLAID COLLECTION

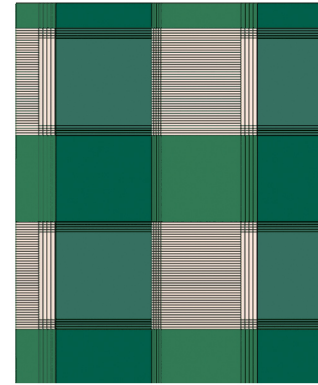

Traditional plaid is a pattern consisting of horizontal and vertical lines intersecting each other to form different sizes and variations of squares. Lola Valentina has exploded the staid and stale old school Scottish plaid and flipped it to a funkier, more modern design. Colors are fresh and appropriately shaded for the cooler season. We've even thrown in a few designs to push color in an edgier direction. This collection pairs well with many of our floral patterns, elevating and giving depth to a sophisticated tablescape.
